

# AttachPlus™

Works with: Microsoft Office®  
**Outlook**  
and many more e-mail applications!

**Sensitive document?... Send it securely!**

## Attach Plus makes securing documents second nature!

Attach Plus makes it so easy to secure and e-mail documents by using the PDF or ZIP encryption standard.

### Who Can Benefit?

- Accountants, CPA's, Auditors
- Government Agencies
- Healthcare – (HIPAA Compliant)
- Financial and Insurance Professionals
- Law Firms
- Anyone concerned with securing data

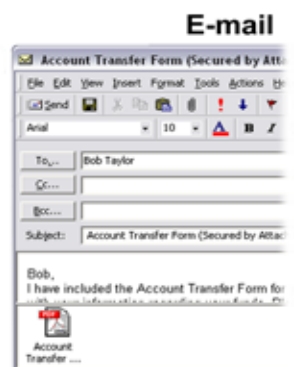

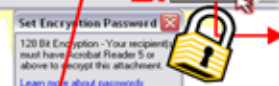

### Why is Attach Plus Smart For Your Business?

- **Secured document distribution** – E-mail is like mailing a postcard, Attach Plus is like delivering e-documents via an Armored Truck.
- **Encryption made easy** – Installed and used immediately – one-minute learning curve
- **Trust** – Clients see tangible results your firm's dedication to securing their data
- **Increase productivity & savings** – Exclusive "Attach & Encrypt" features allows users to e-mail sensitive documents instead of printing and postal mailing.
- **Integration** – Attach Plus integrates with MAPI (Send To) compliant applications and any application that can print.

### How it works:

Just three easy steps:

#### 1. Choose **Send To** or **E-mail Paperclip** or **Print**

#### 3. Encrypted PDF

**Attach Plus...like sending documents via Armored Truck!**

## Key Benefits of Attach Plus:

- Clients/Recipients feel more secure knowing confidential files sent via the Internet are protected
- Adds powerful encryption to your e-mail attach button
- Encrypting documents is so simple, it becomes second nature to your staff
- Helps meet privacy policy guidelines
- Opened with password and free Adobe Acrobat Reader or WinZip.

## More Features And Benefits:

**Attach Plus** integrates with the software applications you use the most! You can encrypt files from within many popular MAPI compatible Windows® desktop applications such as Office™, Star Office™, Open Office™, WordPerfect™ and extended to virtually **any** application that can print.

## Satisfied Customers:

“Our clients are reminded that we are committed to our Privacy Policy by password protecting confidential information we send them over the Internet.”

**Carole Ann Canapari, Operations Manager - Advice One, LLC.**

“Attach Plus functionality exceeds my expectations! Integrates great with my CRM, and even records emails sent “on the fly” to the appropriate contact’s history. The result is that I don’t have to take any extra steps to make sure everything I send is tracked as part of my communications for compliance purposes”

**Ben L. Jennings, CPA/PFS, CFP - Navigator Financial Planning, Inc.**
